

Angelo Kelly, Let me dream

Let's go out for a ride with the kids to the sea
We'll leave it all behind the misery society
Oh, wake me up when it's over, let me dream of somewhere
A place where pain can not be found
Wake me up when it's over, let me dream of somewhere
A place where pain can not be found
You can make some food I'll get the drinks and pack the car
We'll turn off our phones won't tell no one where we are
Oh, wake me up when it's over, let me dream of somewhere
A place where pain can not be found
Wake me up when it's over, let me dream of somewhere
A place where pain can not be found
Oh, wake me up when it's over, let me dream of somewhere
A place where pain can not be found
Wake me up when it's over, let me dream of somewhere
A place where pain can not be found
Oh, wake me up when it's over, let me dream of somewhere
A place where pain can not be found
