

Angelo Kelly, No Chance

What are you doing with the youth
Oh I want to know now
What are you doing with the youth
What is happening with out youth
Oh please give me an answer
What are you doing with the youth
They don't stand a chance
Against this nowadays world
On weekends they drik and dance
To forget all their worries
The boys go with the ladies
Society's calling them lazy
Society's acting crazy
In kindergarden and then in school
They're been told what to do
Sooner or later they become a fool
They're learning religion from a fool
Instead of a qualified priest
No wonder they think it's so uncool
They don't stand a chance
Against this nowadays world
On weekends they drik and dance
To forget all their worries
The boys go with the ladies
Society's calling them lazy
Society's acting crazy
They don't stand a chance
Against this nowadays world
On weekends they drik and dance
To forget all their worries
The boys go with the ladies
Society's calling them lazy
Society's acting crazy
Yeah, to forget all their worries
The boys go with the ladies
Society's calling them lazy
Society's acting crazy
