

# Angelreich, We Are Dying

Don't think that Mother Earth  
can't protect herself from humans  
Rivers are drying up  
Grass is becoming the desert  
More diseases destroy your body, yeah  
Floods and droughts kill your descendants  
So many years in total freedom  
So many actions in total greed  
We are dying  
Angel of Decay started to whisper.  
It's the war  
And I'm on Her side  
It's the war  
The final judgement.  
There's no trumpets, there's no angels  
We are dying in stunning silence!
