

Angels & Airwaves, Good Day

I should have turned back
I should have known better
Than to walk away defeated
I'll say it tonight, I'll say it forever
And this time I really swear I mean it

Oh I need you now
The Earth fell fast asleep
This room is safe and sound
Will you lay here with me
And feel it...

I think I like today
I think its good
Its something I can't get my head around

True love is something that comes easy
Just one kiss god I swear I want to...
I heard a pin drop and a nervous heartbeat
Have you ever heard me scream I love you

Oh I need you now
The Earth fell fast asleep
This room is safe and sound
Will you lay here with me
And feel it...

I think I like today
I think it's good
Its something I can't get my head around [x2]

dadah da dah dah dadadah [x8]

I think I like today
I think it's good
Its something I can't get my head around [x6]
