

# Angels & Airwaves, Stars In The Sky

The Sun Has gone down onto everything, and the town is alive and well without you,  
And the lights, they peer out of a leafless tree,  
And you are not alone, I'm beside you  
True Love, The stars in the sky we were making love.  
Light is the sign that Will guide you home,  
The stars in the sky, we were making love Here to Die, .I will guide you  
Tears, spilling out across the dead end street,  
and your house is alone your thoughts will hold you.  
And the star, bright and loud, is entirely and the fear you do to fear inside you.  
True Love, The stars in the sky we were making love.  
Light is the sign that Will guide you home,  
The stars in the sky, we were making love Here to Die, .I will guide you
