

# Angels and Airwaves, Love Like Rockets

I held my head as I left the Ground  
The belts grew tight as the Blast grew loud  
The loving wish whispered in my ear  
Please leave with grace, all the best my dear  
Yeah, Its like  
I held your hand as I pulled you in  
Your lips sealed tight ready to begin  
I kissed you first then you kissed my ear  
If I ask you once will you ask me every year

Do you feel alive? (Imagine Imagine)  
Do you feel alive? (Imagine Imagine)

The sun would set in the night time sky  
The stars they'd cast and grow upon my eyes  
The art its self a burning ball of light  
Yeah, Its like  
Our first love was ignited late that night

Do you feel alive? (Imagine Imagine)  
Do you feel alive? (Imagine Imagine)

The Stars in your eyes, light up the sky  
with gods light, fire and sound

The Stars in your eyes, light up the sky  
with gods light, fire and sound

Do you feel alive? (Imagine Imagine)
