

Angels, Can't Get Lucky

Angels
The Angels
Can't Get Lucky
(J. Brewster-Throckman)

Have you ever wondered why things turn out wrong?
you keep on trying but you just can't get it on,
always lived by the rules, keeping the company of fools,

You can't get lucky, in your life
you walk along the thin edge of the night

Never touched a lady till you were nineteen,
the only thing that happened, happened in your dreams

You can't get lucky, in your life
you walk along the thin edge of the knife
watch out, if you fall you won't survive.

You work all day trying to succeed
but you never get enough of what you need

You can't get lucky, in your life, you can't get lucky, in your life
you walk along the thin edge of the knife
watch out, if you fall you won't survive.

Look inside the window, there's another world outside,
take a walk out through your door, there's no need to hide

Have you ever wondered why things turn out wrong?
you keep on trying but you just can't get it on,
always lived by the rules, keeping the company of fools,
your face is getting drawn, your shoes are thin
you look like you don't know where you've been

Well you can't get lucky, in your life...
