

Angels, Dogs Are Talking

(Brewster-Neeson-Eccles-Spencer-Hilbun-Brown)

Heat's on, heart is burning
somebody took a desperate chance
downtown streets of passion
last rites for a dead romance
leave the wasteland, time to choose
crack force is closing in on you
take a hard line for the last time
Did you hurt somebody
did you kill the pain
did you hurt somebody
gonna lie alone again
Long walk, guard the backway
cool hand as you mark your man
love in blood, muscle n' money
shoulder to shoulder, close command
final stand, daddy don't die
bullhorn bleeding battle cries
take a hard line for the last time
Did you hurt somebody
did you kill the pain
did you hurt somebody
gonna lie alone again
