

Angels, High On You

(Spencer-Eccles)

Fire gets fire, you know that I am burning up
you want it all, lover's liar
but it's too late now to make a new start
night stalker, dirty talker
leave me with a losing hand
You got me high & dry
you shake me up then you take me for a ride
you got me high & dry
you showed me how to play & then you lit the fire
you got me high & dry
I beg you to come clean, you push me round with loving sin
living in a daydream, pick me up and I lose again
Night stalker, dirty talker
leave me with a losing hand
You got me high & dry
you shake me up then you take me for a ride
you got me high & dry
you showed me how to play & then you lit the fire
you got me high & dry
