

Angels, Love Takes Care

(Brewster-Neeson-Brewster)

(Coordination -- can more than one thousand people coordinate at the same time?)

Didn't ask to be here, taking what they're putting me through
you can moan and cry and wonder why but there's something else
you gotta do

Gotta live it up

baby live it up

yeah live it up

Nobody owes nothing, what you get is up to you

don't say you've done (you know) no dancing `round

you got something else you gotta do

Gotta live it up

baby live it up

yeah live it up

gotta live it up baby

gotta live it up baby

gotta live it up
