

Angelspit, Nurse Grenade

Scalpel separates the skin
Carbon loving act of sin
Drooling metal over bride
Bionic phallus aborticide
Riveting dead flesh to stone
Stillbirth inside Prosthetic-tic womb
Grafting Metal onto flesh
Sever spleen my welt infest
Nurse grenade (cut me)
Take the blade (dagger)
Make the metal sing
Nurse grenade (enslave)
Take the blade (scalpel)
Separate the skin
Kinder skewered in alloy cots
Matron droid milking the cogs
Hatred welds them back again
Beating dead hearts though a glassy cage
Voice of dog barking the hoax
Inject acid tongue e-voke
Brain dead machine drives the corpse
Intravenous hell debauched
Nurse grenade (cut me)
Take the blade (dagger)
Make the metal sing
Nurse grenade (enslave)
Take the blade (scalpel)
Separate the skin
