

# Anggun, By The Moon

Gold and Amber  
Shining through  
Swear by the moon  
I'll wait for you  
Silent treasures  
Tender blushes  
Soft surrender  
To discover  
Feel the wings  
We whisper and sigh  
As the angels glide  
On the touch of our skin  
A fragile voice I hear  
That trembles and deceives  
The deep blue oceans in your eyes  
Desire grows inside  
Veils of mist  
Covered kisses  
Swear by the moon  
I want you  
Pearls of steam  
And the dance begins  
Free the heat  
Make us stronger still  
No more promises  
We are here tonight  
Come together in sweet firelight  
Here until dawn  
Sets us both apart  
A love that's true  
Swear by the moon  
I live for you, for you  
For you, for you, forever for you  
Precious hours  
Fires dying down  
While the night gives way to clear morning light  
Perfumes gracing  
The senses of our souls  
A love that's true  
Swear by the moon  
I'll be here for you, for you, forever for you  
For you, for you, forever for you
