

Anggun, How The World...

Sometimes we forget to remember
To learn higher and to aim further
But sometimes we go too far
Too far to understand who we are

Oh, I don't know how
The world keeps turning
But the world keeps turning around
Around

I flew through the oceans for clarity
To comprehend more about you and me
I've witnessed joy
I've witnessed misery
I have seen richness
I have seen poverty

Oh, I don't know how
The world keeps turning
But the world keeps turning around
Around
