Anggun, On The Breath Of An Angel

Wherever I go / Whatever I see Over oceans unknown / You are always with me Pure as the water / We float on this wave On the breath of an angel / I'll fly away

At the ends of your fingers I follow tonight Caught in the lighting Of a thousand horizons

We dance for no reason You hold on so tight Lost in the feeling Of a wonderful ride

Di semua bahasa Semua warna Kupahami kata Yang kau ukir indah

Nyanyi beku angin Cairkan sengat suria Di relung hatiku Bernyanyi Bidadari

I can hear every word
I see everywhere
Take me into your world
You can answer my prayers

Rivers of hours Where time is so rare Hold me forever Say you'll always be there

Wherever I go / Whatever I see / Over oceans unknown You are always with me

Pure as the water / We float on this wave On the breath of an angel / I'll fly away
