

# Angie Aparo, She's Alright By Me

She loves everyone she meets  
She's the best that I have ever found  
Gives a dollar to the man on the street  
Yeah, she knows what it's like to be down  
When she comes around  
She's alright by me  
She's alright by me  
The only time I'm free  
Like a flower in the rain  
Sunshine breaking on a winter's day  
She's alright by me  
The only time I'm free is  
When she's right here next to me  
Might find her where the children meet  
You might find her in a poor man's town  
New York City down to New Orleans  
California and the world around  
Everybody needs her sound  
She's alright by me  
She's alright by me  
The only time I'm free  
Like a flower in the rain  
Sunshine breaking on a winter's day  
She's alright by me  
The only time I'm free is when  
She's right here next to me  
She's my changing weather  
My Sunday morning together  
I think I need her forever  
She's alright by me  
She's alright by me  
The only time I'm free  
Like a flower in the rain  
Sunshine breaking on a winter's day  
She's alright by me  
The only time I'm free is when  
She's right here next to me
