

# Angie Stone, Everyday (Neptune Remix)

Uh, uh, uh  
What? Check it out  
Angie Stone on the remix with who?  
Neptune, uh

I've had my bouts with love  
I've been going through things you never heard of  
Breakin' up and gettin' back together  
Faced with all kinds of stormy weather  
There was a time thought I'd lose my mind  
My friends and family warned me  
Time after time after time

[1] - Tell me how you gonna get something  
When all you gave up, was nothing  
Every day, every day, every day baby  
You twisted my heart

Tell me why is it that I'm buggin'  
Now that I've got everything  
Every day, every way you gonna pay

Now baby it took a few  
For me to get over you  
I didn't think I could make it  
But my faith in God said I could check it  
Back in the day I wasn't good enough for you  
I would do anything to win you over  
You took advantage of my attention  
Oh, did I forget to mention  
Every day you did the same thing  
And every hour you'd switch up on me  
Every minute I'd be forgiving  
Every second we'd be reliving  
Every day you did the same thing  
And every hour you'd switch up on me  
Every minute I'd be forgiving  
And every second we'd be reliving

[Repeat 1]

[rap]  
Yo, yo, uh  
How you only recall the rough times?  
We ain't laugh late nights watching Loveline  
I ain't rubbed your back, you ain't rubbed mine  
I ain't kissed on yours, you ain't kissed mine  
I guess you the only one hurt  
Like I don't miss by the hand up your skirt  
With my chrome in your purse  
There's a lot chicks out here loving to flirt  
You got my name in the streets  
They just lovin' the dirt  
What? I ain't keep 88 in the lining  
Couldn't divide 'em only if I slide 'em, straight grinding  
Moon shining getting cake till down  
Amnesia huh? I ain't take you on  
Shopping sprees to D.C. order from Rodeo  
Spilt the credit card number only if I say so  
Packing that pack and packing that mack  
You know what this is why you actin' like that?

[Repeat 1]

Well, it was your attitude much too shrewd  
Caused you to lose, now who's the fool?  
It was your attitude much too shrewd  
Caused you to lose, now who's the fool?  
Cause all I had is love for you  
And there ain't nothing more to do  
Cause I had a crazy, crazy, crazy love baby, babe, baby, baby yeah  
See when you come home early  
Don't come with that freaking respect  
Cause I ain't got no time for packing up your, ooh

Uh, keep it hot, ooh, ooh ah, ooh

[Repeat 1]
