

# Angie Stone, You're Gonna Get It

I've been watching you very closely and mostly you stick to yourself you and nobody else I'm diggin'  
Never spot you with too many women acting foolish and giggling basically what I am saying is I'm f  
Tell me what to do  
Just to be with you  
Whatever it is your gonna get it (oh, oh)  
Tell me what to do  
Just to be with you  
What ever it is  
Your gonna get it  
Do I gotta change my style just a little or a lot  
Let me know so I can get it right  
Whether it's my hair, they clothes I wear I don't I'm gonna do  
Anything I have to  
Tell me what to do  
Just to be with you  
Whatever it is your gonna get it(oh, oh)  
Tell me what to do  
Just to be with you  
What ever it is  
Your gonna get it  
If you want me to I will do anything that you would as me to do  
I would do anything just to keep you happy I will - yes I will  
Tell me what to do  
Just to be with you  
Whatever it is your gonna get it (oh, oh)  
Tell me what to do  
Just to be with you  
What ever it is  
Your gonna get it
