

# Angtoria, Suicide On My Mind

Did I want to live  
Within the empty space  
My sleep numbed my pain  
Now I'm awake  
My sanity has gone  
Little girl screams  
For life's release  
Don't hold me back I want to fall  
Little girl pleads  
For life's disease  
To mourn away my soul  
Did I want to die  
Pain consumed me inside  
Heaven on my tongue  
Drunk down with suicide  
Beyond self control  
My urge has gone  
Little girl screams  
For life's release  
Don't hold me back I want to fall  
Little girl pleads  
For life's disease  
To mourn away my soul  
Time does not heal  
A shame so surreal  
Little girl screams  
For life's release  
Don't hold me back I want to fall  
Little girl pleads  
For life's disease  
To mourn away my soul
