

# Angus, I'm A Fool With Love

My life was empty  
I was living day to day  
Until I met you girl  
I hadn't really found my way  
It didn't take so long  
You mend everything to me  
But like the blind who leaves the blind  
I couldn't know the fool was me

[Chorus:]

Love has showing me the way  
It's like a million stars in your eyes  
And now I'm begging you to stay  
You know I just can't say goodbye  
And now your leaving  
It was a kind of thing to do  
To call me on the phone  
And said tomorrow you be gone  
Loving you so easy  
Why does it break my heart to go  
You wanted to release me  
Was it all part of your show

[Chorus:]

I'm a fool with love  
And I'm begging you to stay
