

Ani Lorak, I'll be your melody

Time to wake up, my darling
Night is so far dont care
On the clouds we are lying.
You and me its unreal!
When I can find your whisper
Near my skin (I promise)
Youll never feel the mystery
Of my voice is nervous.

Chorus

I deny the borders
Let we be in harmony!
No more false between us
Ill be your Melody!
I deny the borders
Let we be in harmony!
No more false between us
Ill be your Melody!

Looking so sweet and burning

Being with you the reason!
