

# Ani Lorak, To Be On Top

We all climb a mountain  
Nobody knows who wins  
We start from the bottom  
When we're so young and clean

The top is so high, but we're dreaming  
Stay there one day on the top

You've got you're a mountain  
The way is wine and hard  
But dreams so attractive  
You know it's worst to start

You can not stop cause your dreaming  
Stay there one day on the top

Refrain:  
So we go hop hop hop!  
To be on top top top  
The life is not a fairy tale  
You catch me on the hop  
Just crash my dreams and hope  
I have to start once again

So you topped them all now  
You stay above them all  
Beware you can fall down  
Or fly to save your soul

Top is so high and its glimmering  
Stay there one day on the top

Refrain:  
So we go hop hop hop!  
To be on top top top  
The life is not fairy tale  
You catch me on the hop  
Just crash my dreams and hope  
I have to start once again

So we go hop hop hop!  
To be on top top top  
The life is not fairy game  
You catch me on the hop  
Just crash my dreams and hope  
I have to start all the same

Top is so high and its glimmering  
Stay there one day on the top

Refrain:  
Refrain:
