Ani Lorak, To Be On Top

We all climb a mountain Nobody knows who wins We start from the bottom When we're so young and clean

The top is so high, but we're dreaming Stay there one day on the top

You've got you're a mountain The way is wine and hard But dreams so attractive You know it's worst to start

You can not stop cause your dreaming Stay there one day on the top

Refrain:

So we go hop hop hop!
To be on top top top
The life is not a fairy tale
You catch me on the hop
Just crash my dreams and hope
I have to start once again

So you topped them all now You stay above them all Beware you can fall down Or fly to save your soul

Top is so high and its glimmering Stay there one day on the top

Refrain:

So we go hop hop hop!
To be on top top top
The life is not fairy tale
You catch me on the hop
Just crash my dreams and hope
I have to start once again

So we go hop hop hop!
To be on top top
The life is not fairy game
You catch me on the hop
Just crash my dreams and hope
I have to start all the same

Top is so high and its glimmering Stay there one day on the top

Refrain: Refrain:
