

Ania Deko, Hold Up

I miss you even more
I have been wake for a while now.
Now I feeling that now I want only you .
I think about it when I hold you - hold up, I lost control.
Oh that's not another game, please baybe.
We are standing in the rain,
only we and nothing matters
I will be a star on your heaven. I will be your angel.
It starts in my soul but it's coming from my heart.
Seems like a meet and loving.
Oh honey I will give it to you.
I think about it when I hold you - hold up, I lost control.
Oh that's not another game, please baybe.
I think I'm just crazing, I won't only be lucky
in the morning, in the kiss again. I just missing You .
Something special in my mind, in my mind in my mind
promise that you will love me, that is not another game .
I think about it when I hold you - hold up, I lost control.

When you are looking in my eyes I can take it,
When you are looking at me I melting.
I think about it when I hold you - hold up, I lost control.
