

Animal Collective, Derek

had a white and black shar pei
I don't know when we first got him
should have taken better care of him
for he added ok
sorry when I get unruly
when you carry on so much I get a little tired
hope you get over your teething
it's not easy when you feel sick
had to sprightly walk you like him
when he peed up all on your side
grab your bed cast what he told us
me and michael dared each other like we were posited
derek never woke up at night
and he don't move when he's ready to go
and he never had a voice like you
to scream when he wanted something
should have been so much more willing
to have out with all the things that michael needed
whoop-de-doo, whoop-de-doo...
see what it is, see what it is...
see inside of the eye, of the eye...
see inside of the eye, of the eye...
you can die, you can die...
when you get, when you get...
what you know, what you know...
count on me, count on me...
whoop-de-doo, whoop-de-doo...
see what it is, see what it is...
see inside of the eye, of the eye...
see inside of the eye, of the eye...
