

Animal Collective, Good Lovin' Outside

There's a place I know where we can go,
Slide on down the wooden staircase,
Get up and outside
Let's find a good place,
And take off your clothing
I stopped wearing a watch,
But I've kissed your face, twice
And so we left the party
And things really get going
Things really get going
We can watch the things we eat
but I need your conf--escape with me
and we can loath in moss all night
your kind and sweet and i feel your inside
And I'll kiss you in the kitchen but there's lovin' outside
I'll touch you and you'll touch me
the rain won't scare us cause we're lovin' outside
I'm wearing your shirt
So act like a kid, and pretend to hit me
Cause we act in the funniest ways
But it's just like it should be
With good love on the outside
