True Love

I had this feeling

I'd give you a call

We hadn't talked since

Our backs were to the wall

Remember that rainy night

When it all came to an end

Our tears they paved the streets

We'd gone beyond the bend

I wrote a thousand times

About the love we shared

Crossed out a thousand lines

Couldn't get nowhere

I heard you walked down the isle

Is it true?

And I heard your true true love

He up and left you

I still believe

True love ain't far

I got a few more greys and some battle scars

But I still believe

You won't be surprised to know

That I am still the same

Can't shake what eats me up

Like you can't remove a stain

I've discovered meanings

And truths I didn't know

I've learned just when to hold on

And when to let it go

I still believe

True love ain't far

I got a few more greys and some battle scars

But I still believe

True love ain't far

True love ain't far

True love and far for me

True love ain't far

True love ain't far for me
