

Animotion, I Want You

Time and time again I keep tryin' to put you out of my mind
I can't concentrate, you're the only feelin' I can find
And it's taking over, rolling me over
Seems like it won't stop
And I've lost control
Of my heart and soul
'Cause when I see your eyes
Then I know I want you
When I hear your voice
That's when I know I want you
Losing all my defenses you're slippin' back inside of my head
It's getting so I can't exist without the thought of us together again
And it's taking over, rolling me over
Seems like it won't stop
And I've lost control
Of my heart and soul
'Cause when I see your eyes
Then I know I want you
When I hear your voice
That's when I know I want you
When I feel your touch
Then I know I want you
Then I know I want you
I want you
In my life it's been so uncertain
Ties were broken and it left me hurting
Maybe now I can trust again with you
And it's taking over, rolling me over
Seems like it won't stop
And I've lost control
Of my heart and soul
'Cause when I see your eyes
Then I know I want you
When I hear your voice
That's when I know I want you
When I feel your touch
Then I know I want you
Then I know I want you
I want you
'Cause when I see your eyes
Then I know I want you
When I hear your voice
That's when I know I want you
When I feel your touch
Then I know I want you
Then I know I want you
I want you
I want you
I want you
I want you
I want you
