

# Animotion, Room To Move

I know it seems like I'm a million miles away  
At times you feel like you don't even know me  
But in this world the pressure's building everyday  
And I need time to work things out - oh baby

It's not that I don't love you - oh no  
It's just that I - I've got to have -

Room to move - that's all I need  
That's all I ask for - room to breathe  
Room to move - that's all I need  
That's all I ask for - give it to me  
Room to move - everybody needs - room to move

Everybody needs some freedom to survive  
To shake the chains of responsibility  
And you can help me make this feeling come alive  
'Cos when you hold me close - that's when you set me free

Girl you know I'll always love you - oh yeah  
'Cos when we touch - I get so much

You lose your mind - if you don't take time  
You cross that line and your mind explodes  
You push too hard - and your feelings starve  
Emotions are - all destroyed  
Girl you know I'll always love you - oh yeah  
'Cos when we touch - I get so much
