

Anita Baker, In My Heart

Oh no baby here I go
Fallin' in on the deep end one more time baby
I'm helpless to stop this, there's no defense
(Got this fever) I'm sick baby
(I'm on fire) I'm on fire
(Fire burns) fire burns

Chorus:

In my heart, in my life, on my mind, in my head
In my house, in my arms, in my room, in my bed
I feel the symptoms I know the signs
Will I get well, really can't tell not for sure darling
For this disease you're the only cure
(Got this fever) I'm sick baby
(I'm on fire) I'm on fire
(Fire burns) fire burns

In my heart, in my life, on my mind, in my head
In my house, in my room, in my arms, baby baby baby
Take my heart, take my soul
Take my hand, make me whole baby
Say my name, ease this pain baby
In my heart, in my life, on my mind, in my head
In my house, in my room, in my arms, in my bed
