## Anita Baker, In My Heart

Oh no baby here I go Fallin' in on the deep end one more time baby I'm helpless to stop this, there's no defense (Got this fever) I'm sick baby (I'm on fire) I'm on fire (Fire burns) fire burns

## Chorus:

In my heart, in my life, on my mind, in my head In my house, in my arms, in my room, in my bed I feel the symptoms I know the signs Will I get well, really can't tell not for sure darling For this disease you're the only cure (Got this fever) I'm sick baby (I'm on fire) I'm on fire (Fire burns) fire burns

In my heart, in my life, on my mind, in my head In my house, in my room, in my arms, baby baby baby Take my heart, take my soul Take my hand, make me whole baby Say my name, ease this pain baby In my heart, in my life, on my mind, in my head In my house, in my room, in my arms, in my bed
