

# Anita Cochran, Last Kiss

I know you're going, I know this is goodbye  
And I can't make you stay no matter how hard I try  
And ooh, if your leaving, please grant me this one request  
And leave my heart with some happiness  
If this is the last kiss  
Let's make it last all night  
If this is the last time that I'm ever gonna hold you  
Let me hold you tight 'til the morning light  
If this is the last time, ooh, we'll ever be together  
Then kiss me and baby, give me something to remember you by  
Pull down the shades  
Put your heart next to mine  
Tonight, give me a chance to feel heaven just one more time  
And ooh, if your leavin', well honey, I'll set you free  
Just leave my arms with one sweet memory  
If this is the last kiss  
Let's make it last all night  
If this is the last time that I'm ever gonna hold you  
Let me hold you tight 'til the morning light  
If this is the last time, ooh, we'll ever be together  
Then kiss me and baby, give me something to remember you by  
If I can't be with you, baby, all my life  
The next best thing is you next to me all through the night  
If this is the last kiss  
Let's make it last all night  
If this is the last time that I'm ever gonna hold you  
Let me hold you tight 'til the morning light  
If this is the last time, ooh, we'll ever be together  
Then kiss me and baby, give me something to remember you by
