God Created Woman

It was a mans world for a day and a half
Adam had a garden for a bachelor pad
But something was missing in his paradise
Then along came Eve, the apple of his eye
Without hesitation he gave into temptation
Cause God created woman to raise a little Cain
Gave her a softer side, put fire into her eyes to drive a man insane
He knew what He was doing, cause history has proven
Since God created woman mans never been the same
Old Christopher Columbus would have never set sail
Without a little push from Isabel
Alexander Graham invented the phone
So his wife could ring a bell when she wanted his home
Some feminine persistence can make a world of difference
Cause God created woman to raise a little Cain
Gave her a softer side, put fire into her eyes to drive a man insane
He knew what He was doing, cause history has proven
Since God created woman mans never been the same
Its all a part of the plan, for the good of every man
Cause God created woman to raise a little Cain
Gave her a softer side, put fire into her eyes to drive a man insane
He knew what He was doing, cause history has proven
Since God created woman mans never been the same
