

Anita Lipnicka & John Porter, For You

Im not around
To turn off your light
Find you in the dark
And kiss you goodnight
Im not around
To feed you with hope
And hold you tight
When your hold goes cold
Time is time is time
Just an explosion of memories
I want you to know
You mean everything to me
Ref.: And everything you do
Im doing it with you
And everywhere you go
Im there for you
Im not around
To see that smile on your face
To be there every day
Hear what youve got to say
Im not around
When you get back alone
Break down and cry
Because Ive left home
Time is time is time
An explosion of memories
I want you to know
You mean everything to me
Ref.: And everything etc x2
Youre not around
To turn off my light
And Im not around
To kiss you goodnight
Ref.: And everything etc x2
