

Ann Lee, In You

You know it's not bad if you're taking your time
time to look around you
don't you run around making crazy your mind
the truth will come on through
Now I never said to give up on your dreams
that's not the thing to do
but take it slow and the answer you'll see
is right ahead of you
In you - inside of you
In you - can see it through
It's a world gone crazy - it's all going fast
time is racing by
relax yourself make the minutes last
I can tell you why
You can never forget that the time that we met
a moment that time was still
well you think about that 'cos it's all that you got
to take you right up and through
In you 'cos it's in you
In you can see it through
