

# Anna Abreu, Stressed Out

Listen up 'cause I gotta tell you  
The way it is won't last the night trough  
Done it all to make it happy, how much does it take?  
I'm not saying that I won't give up now  
But you're acting out of scene you once saw  
And the drama's only getting deeper  
Do you like that feeling?

Now I'm caught inside  
Out of breath now  
I'll be crushed alive,  
My heart begins to feel the pressure

Stressed out,  
Here's the situation,  
Stressed out,  
With all the aggravation  
Calm down, until the complication,  
This is not my fault,  
Stressed out,  
Another confrontation,  
Stressed out,  
For your information,  
I'm out, in need of liberation,  
This is not my fault

Riding fast on your roller coaster,  
You'll be screaming 'til the ride is over  
Can't we skip to the happy ending  
If I have no way  
I would never let the flames get higher  
Fighting back only fans the fire  
Can't we skip to the happy ending  
I don't know what to say

Now I'm caught inside  
Out of breath now  
I'll be crushed alive,  
My heart begins to feel the pressure

Stressed out,  
Here's the situation,  
Stressed out,  
With all the aggravation  
Calm down, until the complication,  
This is not my fault,  
Stressed out,  
Another confrontation,  
Stressed out,  
For your information,  
I'm out, in need of liberation,  
This is not my fault

Bringing me down  
What's with that  
I don't need this now  
Stressed out (stressed out)  
Come around (come around)  
Calm down  
This not my fault

Here we are, and the cards are falling  
Here we are, and no point in stalling  
Should you try picking up the pieces

Or leave them on the floor

Stressed out,  
Here's the situation,  
Stressed out,  
With all the aggravation  
Calm down, until the complication,  
This is not my fault,  
Stressed out,  
Another confrontation,  
Stressed out,  
For your information,  
I'm out, in need of liberation,  
This is not my fault

Stressed out,  
Here's the situation,  
Stressed out,  
With all the aggravation  
Calm down, until the complication,  
This is not my fault, (my fault)  
Stressed out,  
Another confrontation,  
Stressed out,  
For your information,  
I'm out, in need of liberation,  
This is not my fault (not my fault)
