

anna fegi, What Good Is That Without You

Anna Fegi
Straight Ahead
What Good Is That Without You
WHAT GOOD ID THAT WITHOUT YOU

You catch the moon in your eyes
And my heart goes wild
As we say goodbye to our friends
Who are here to share our joys and tears
Celebrate the years

I was a child when I knew
I would love someone like you
Were a star in you world
Waiting for your star to shine on thru
Now there's one from the two

Chorus
And I want you here by my side
All of the time
I need your love so true
Coz if you were out of my life
I would survive but baby
What good is that without you?

All of my life, all my dreams
All the creases and the seams
Of my hopes I find you
All I do is reach inside myself
And you're there everywhere

(chorus)

Bridge:
This must be destiny
This must be fate
Our love's a mystery
We can't debate
It's too late

(chorus)
