

# Anna Szarmach, Take It Or Leave It

What I am or what I'll be  
Is completely up to me  
So take it or leave it  
I'm nobody else but me  
I was always plain to see  
I don't care if you agree  
Just take it or leave it  
Tell me which it's gonna be  
I didn't use to be so  
Now you can not control  
What I feel, what I know  
I don't feel in your mold  
I'd much rather let you go  
Don't take anymore, say anymore  
What I am or what I'll be  
Is completely up to me  
So take it or leave it  
I'm nobody else but me  
I was always plain to see  
I don't care if you agree  
Just take it or leave it  
Tell me which it's gonna be  
I have ways of my own  
That's what make me so strong  
Something your to be shown  
If you wanna ride along  
There's no room for you to  
Belittle me or unsettle me to  
Sway me  
Play me no more  
What I am or what I'll be  
Is completely up to me  
So take it or leave it  
I'm nobody else but me  
I was always plain to see  
I don't care if you agree  
Just take it or leave it  
Tell me which it's gonna be  
Can't fool me, loop me, swoop me, pull me through  
Teach me, preach me, push me, tell me to  
If you think that you know better you had better go  
If they tell you just go get her I will tell you no  
Being proud ain't a crime  
Self confidence helps in life  
Be in a constant harmony  
Spiritual ballance is what you need  
Pay attention everywhere, do not  
Play like you just don't care  
Uh uh, come on  
Take your chance and let it go  
What I am or what I'll be  
Is completely up to me  
So take it or leave it  
I'm nobody else but me  
I was always plain to see  
I don't care if you agree  
Just take it or leave it  
Tell me which it's gonna be  
Things just aren't what they seemed  
Hope you know what all this means  
Get with it or beat it and that's all it's gonna be  
It was always plain to see  
I'm nobody else but me  
Just take it or leave it

Tell me which it's gonna be
