

# Anna Ternheim, Words Of Love

Words of love sent by you  
Any way you get them through  
Words of love trouble me  
Feels like someone's watching me

Loving hands around my throat  
Bob what are you speaking of?  
Sounds like panic in my head  
Tie the strings and i play dead

All around me  
Speak about you  
Always find me  
And remind me of you

I've erased every line you wrote  
Words you stole, my quotes of love  
Paper pins over flow  
In my head and on my floor

Words of love  
Words of love

All around me  
Speak about you  
Always find me  
To remind me of you  
To remind me of you
