## Anna Tsuchiya, Better Day

I see a perfect sky

I met a perfect guy Gosh, I fell in love

For the first time baby

No pleasure without pain

and this love will heal me

Don't waste a single moment

This day is a gift

Close your eyes Open your mind

Nothing can be done while i

Nothing can be done while just waiting

So breathe words of love

I want to see your smile

I want to live in your eyes

I want to hear your voice

Because nobody but you

Sometimes I feel down

Sometimes I get lost

Baby hold my hand & amp; guide me to a better day

Hope keep me alive

Happiness you gave me

Fill me with joy

Don't turn your back on me

Sometimes NO! NO! we missed each other

But we can't get through the difficulties in life

Close your eyes

Open your mind

Nothing can be done while just waiting

So breathe with me

I want to share your tears

I want to hear your heart

I want to live in your eyes

Oh! Nobody but you

Sometimes I lose my mind

Sometimes I want to die

Baby hold my hand & amp; guide me to night

Oh! I had a bad day Forget everything

Where is the moment when needed the most

I'm lying in the sun & l'm just I'm just breathing out

You have to know, now

Every single thing

Someone does & amp; says

Will make you happy, alright?

Sometimes I feel down

Sometimes I get lost

Oh! Baby hold my hand

I want to share your eyes

I want to hear your heart

I want to live in your eyes

Oh! Nobody but you

Sometimes I lose my mind

Sometimes I want to die

Babuy hold my hand & amp; guide me to better day
