Anna Vissi, Lie

You don't wanna see my face again You don't even wanna say my name You don't wanna hear a word from me There is nothing to explain

You will not forgive me You will not forget You believe that its all over You hate me, you hate me more and more

You say there's no fire burning in your heart You don't need me its over its over You don't feel no pain There is nothing left You don't love me its over over

Lie lie lie lie say you lie say you lie Lie lie lie lie lie lie

Say you think that what we had is through It will never be the same again And no matter what I say or do It will never stop the rain

You will not forgive me You will not forget You believe that its all over You hate me, you hate me more and more

You say there's no fire burning in your heart You don't need me its over its over You don't feel no pain There is nothing left You don't love me its over over

Lie lie lie lie say you lie say you lie Lie lie lie lie lie lie
