

Anne Heaton, My Only Way Out Is In

My only way out is in
My only way out is in
My only way all the way out is all the way in
No one loves me enough
To put up with all this stuff
I love a good man
And I love one better than him
I toggle in between
If either knew how I feel
I would have neither of them
And my only way out is in
My only way out is in
My only way all the way out is all the way in
No one loves me enough
To let my heart be as big
As it really is
To let my heart be as big as it is
No, no one loves me enough
To put up with all this stuff
To let my heart be as big as it is
And my only way out is in
Im going to end up alone
Like I am most days at home
Just like I am when Im surrounded by people
Yes, Im going to end up alone
Like I am most days at home
Just like I am when Im surrounded by people
And my only way out is in.
