

Anne-Marie, This Is Not A Love Song

[Verse 1]

I turned my radio on
And all I hear is songs about these broken hearts
And how someone did them wrong
And why don't we decide
Let the sadness lie

[Pre-Chorus]

Cause you know that I'm, ah
Sick of the same sounds
I'm tearing this house down
I need a moment
I need a moment
What am I suppose to do?
I don't do sad and blue
I need a moment
I need a moment

[Chorus]

This is not a love song baby
I've heard too many love songs lately
If you wanna love song
Maybe you should move
People build their world around it
I reckon I can live without it
I'm not gonna be, I'm not gonna be like you
(This is not a love song, this is not a love song, baby)
(This is not a love song, this is not a love song, baby)
Yeah, yeah, yeah, yeah
(This is not a love song, this is not a love song, baby)
(This is not a love song, this is not a love song)
(This is not a love song, baby)
(This is not a love song, baby)

[Verse 2]

Now don't try and box me in
Or pin me down
I'm getting out of this love sick town
There's nothing for me, you know
There's nothing for me

[Verse 3]

We are turning up, we're not coming down
We don't need those songs right now
There's nothing for me
There's nothing for me

[Chorus]

This is not a love song baby
I've heard too many love songs lately
If you wanna love song
Maybe you should move
People build their world around it
I reckon I can live without it
I'm not gonna be, I'm not gonna be like you
(This is not a love song, this is not a love song, baby)
(This is not a love song, this is not a love song, baby)
Yeah, yeah, yeah, yeah
(This is not a love song, this is not a love song, baby)
(This is not a love song, this is not a love song)
(This is not a love song, baby)

This is not a love song baby

I've heard too many love songs lately
If you wanna love song
Maybe you should move
People build their world around it
I reckon I can live without it
I'm not gonna be, I'm not gonna be like you
