

Anne-Marie, Up With the Moonlight

I like the late nights up with the moonlight
I can't find any point in sleeping
Ain't no real in dreaming
Na na na yeah
You might say it's rest time, I'd do that when I die
I'm weird, right?
I know that's what you're thinking
And "this girl needs some melatonin"
Yeah, I know it sounds crazy
No, yes, it is, maybe
How do I concentrate?
I never do things daily, man, I don't know
No, really, I don't know
