

# Anne McCue, All I Need (Don't Try)

I've been happy in this house  
Wasn't looking for a home  
I like sleeping on the couch  
After drinking on my own  
So don't try  
I've got all I need to get by  
I've got all I need  
Don't go whispering to me  
About how love will set us free  
And take your pretty hand off mine  
Save your kisses, save your time  
And don't try  
I've got all I need to get by  
I've got all I need

And if you're coming here for love  
You're wasting time  
Don't go hangin' 'round love's door  
It'll hurt you to the core  
It'll cheat you till your poor  
When you're leaving please be quiet  
Let me sleep on through the night  
And those precious words we spoke  
Come to nothing when you're broken  
So don't try  
I've got all I need to get by  
I've got all I need to get high  
I've got all I need
