

# Anne Murray, We All Pull The Load

We all pull the load  
We all pull the load  
We gotta get up early in the morning  
'Cause we all pull the load  
Well, you can find you a world full of bother  
And talking to your good neighbor  
'Cause he ain't interested in favors  
No, in the road that he's gotta hold  
Oh well, the world outside is vicious  
'Cause life's been canning his hopes and wishes  
But still he's got ambition, yeah  
In the life that he wants to own  
We all pull the load  
We all pull the load  
We gotta get up early in the morning  
'Cause we all pull the load  
Preacher shouts out the answer  
The congregation looks for the problem  
Every man born has got 'em  
But he just wants to go home  
Moses said to Jesus  
Go ahead and walk on water  
We'll do like we ought to Lord  
And sit back in the row  
We all pull the load  
We all pull the load  
We gotta get up early in the morning  
'Cause we all pull the load  
God's got time to look down  
There's plenty of him to go around  
He's gotta have a place to sit down  
So save a little room in your soul  
We all pull the load  
We all pull the load  
We gotta get up early in the morning  
'Cause we all pull the load  
We all pull the load  
We all pull the load  
We gotta get up early in the morning  
'Cause we all pull the load  
We all pull the load  
We all pull the load  
We gotta get up early in the morning  
'Cause we all pull the load
