

# Annie, Bad Times

Bad times never sounded so good  
Even though I know we're no good, I forget about the pain  
You're damn right, we've been on and off for too long  
Even though I know it's so wrong still I feel the same  
Bad times never sounded so good  
Even though I know we're no good, I forget about the pain  
You're damn right, we've been on and off for too long  
Even though I know it's so wrong, still I feel the same  
The loneliness reminds you that everything fades  
You said that love is strange  
With all the mess behind you it's better that way  
But you said our love could change  
To have you in my arms when all is said and done  
To have you in my arms, make believe we've just begun  
Bad times, bad times never sounded so good  
Even though I know we're no good, I forget about the pain  
You're damn right, we've been on and off for too long  
Even though I know it's so wrong, still I feel the same  
The loneliness reminds you that everything fades  
You said that love is strange  
With all the mess behind you, it's better that way  
But you said our love could change  
Bad times, bad times, bad times, bad times
