

Annie, Heatbeat

There was a time
everyone was around
and I was dancing with you
We all went down
to a party Friday night
and had a drink there or two
Oh what a heat
Of a love and heartbeat
That's electricity
Majestic sound
round and round and round
I'm glad youre next to me
Feel my heartbeat
Truly to the beat
Love the symphony
Feel my heartbeat
Truly to the beat
Love the melody
Come and see
Feel my heartbeat
Draw me to the beat
Love the symphony
Feel my heartbeat
Draw me to the beat
Love the melody
Come and see
Time after time
Everybody came around
And I was dancing with you
Don't know your name
Making me ashamed
to feel the way that I do
The lights went out
Couldn't be without
It was a place to be
I won't forget the greatest
Times I had when I was dancing with you
Feel my heartbeat
Draw me to to the beat
With, i want it now
Feel my heartbeat
Draw me to the beat
With, i want it now
..Somehow
Feel my heartbeat
Trembling to the beat
We all want it now somehow
Feel my heartbeat
Draw me to the beat
Love the symphony
Feel my heartbeat
Draw me to the beat
Love the melody
Come and see
Feel my heartbeat
Feel my heartbeat
Feel my heartbeat
Now
Feel my heartbeat
Feel my heartbeat
Feel my heartbeat
Now, somehow
There was a time
Everybody was around

And I was dancing with you
Don't know your name
Making me ashamed
To feel the way that I do
The lights went out
Couldn't be without
It was a place to be
I won't forget
The greatest times I had
When I was dancing with you...
