

Annie, Heaven & Hell

Our love's stuck between heaven and hell
I can't tell where we're meant to be
'Cause love's got me stuck between heaven and hell
And I can't tell you how I feel about our love
Our love's stuck between heaven and hell
I can't tell where we're meant to be
'Cause love's got me stuck between heaven and hell
And I can't tell you how I feel about our love
Oh, since you went away my Saturdays are turning gray
And this world I fell into can't turn the sky and make it blue
Oh, since you went away my Saturdays are turning gray
And this world I fell into can't turn the sky and make it blue
Tell me, tell me, what did I do wrong?
Oh baby, I ain't perfect
Darling, tell me where the days have gone?
'Cause I can't sleep
Our love's stuck between heaven and hell
I can't tell where we're meant to be
'Cause love's got me stuck between heaven and hell
And I can't tell you how I feel about our love
Our love's stuck between heaven and hell
I can't tell where we're meant to be
'Cause love's got me stuck between heaven and hell
And I can't tell you how I feel about our love
Ooh, our love is out there
Ooh, we know it's out there
Ooh, we know it's out there
Ooh, it must be out there
Tell me, tell me, what did I do wrong?
Oh baby, I ain't perfect
Darling, tell me where the days have gone?
'Cause I can't sleep, 'cause I can't sleep
Our love's stuck between heaven and hell
I can't tell where we're meant to be
'Cause love's got me stuck between heaven and hell
And I can't tell you how I feel about our love
Our love's stuck between heaven and hell
I can't tell where we're meant to be
'Cause love's got me stuck between heaven and hell
And I can't tell you how I feel about our love
