

Annie Lennox, Big Sky

Big Sky
I'm gonna hurt you
Big Sky
You'll remember this
Big Sky
Up above the rain
How can I ever put a stop to it
Look you in the face again

Big Sky
I'll never let you go
Big Sky
Baby I told you so
Big Sky
look at this swollen pride
I got so busy looking out for you
When were you by my side

When I'm breathin'
When I'm sleepin'
I can't think of nothing else
All my longing all my waiting
All the things you never felt

All my weeping all my wailing
All my standing on the shelf
How am I ever gonna get through this
Back to myself again?

Big Sky
I never knew you
Big Sky
let me down again
Big Sky
I'm giving you the blame
How can I ever put a stop to this
Look you in the face again

Wont you say it isn't so?
Watch me fallin'
See me fallin'
I slip through the vortex of the sky
Darkness and light
Is what's inside
Darkness and light
It's what's inside
