

# Annihilator, Both Of Me

We lie awake and try to reason why  
These people treat us so unkind  
Just wanna taste the freedom one more time  
Just wanna leave it all behind  
We sneak down the hallway, it's time for us to go  
It's time for them to let us be  
So close to heaven, I can almost see the light  
A few more steps and we'll be free  
Leave it all behind  
Breaking out in silence  
As we crawl beneath the gate  
Run, run so much fun  
Doesn't it feel great  
Over the wall, the great escape  
We pledge you this and vow  
That you'll never, ever catch us  
You'll never get us now  
Breathing hard, we got to get away  
Never going back to yesterday  
Run and hide from the enemy  
But you can't stop the both of me  
Racing through the darkness  
As we slice into the night  
There's no one here to challenge us  
Our freedom's now in sight  
But something moves around us  
They've seen through our disguise  
Flashing lights surround us  
They begin to multiply  
Siren's wall, they're right behind us  
But I know what to do  
It's time for us to say good bye  
Time to split in two  
Returning there is not an option  
We've never going back  
You cage us like an animal  
Prepare for the attack
